I am a computer science major at the University of South Carolina Honors College with 1 year of experience developing web applications and working in IT. My background in tech support has given me problem solving and communication skills that I apply to my various daily tasks. I am eager to utilize these skills in an internship that allows me to further develop my abilities while making a positive impact within a dynamic team environment.

WORK EXPERIENCE

Front-End Developer Intern   *August 2023-June 2024*
Interpixel Studios   Rock Hill, SC

- Worked on a team to design and develop visually appealing websites with intuitive navigation by focusing on user-centric design principles and content configuration to enhance user engagement and improve SEO
- Implemented strategies for mobile optimization and was involved in the QA process to ensure sites were responsive and accessible across all platforms.
- Consistently met tight deadlines by leveraging strong communication skills, anticipating potential problems, and taking measures to keep projects on track while upholding high standards of quality
- Strategically reached out to dozens of local businesses via email, and as a result, secured multiple new clients for the company

Technical Support Assistant   *August 2023-May 2024*
St. Anne Catholic School   Fort Mill, SC

- While I was a full-time student at the highschool, I worked alongside the IT department to assist faculty and students with the installation, configuration, and troubleshooting of computer software or any tech-related issues
- Assisted with the administration of the school's internal management tools including RenWeb, Mosyle Manager, and Google Admin Console
- Set up MacBooks and iPads on Mosyle MDM for faculty and students at both the middle and high school campuses
- Set up Gmail accounts for new students and handled password issues for RenWeb and Gmail.
- Performed software updates and routine maintenance for all school computers

TECHNICAL SKILLS

- **Programming Languages:** Javascript, Java, C#, HTML, CSS
- **Developer Tools:** Figma, Divi, Git, Slack, Jira, Github
- **Extra:** Excel, Powerpoint, WordPress

EDUCATION

UNIVERSITY OF SOUTH CAROLINA   **Columbia, SC**
